Deconsolidation of Byblos Bank Syria & Byblos Bank Africa at end 2016

Byblos Bank Syria, which is 59.87% owned by the Group, as well as Byblos Bank Africa, which is 56.86%, are operating since more than 5 years in difficult environments where there is war, conflicts, sanctions, limited foreign currencies, as well as local currency sharp devaluation, and which are expected to continue for the foreseeable future, effective 31 December 2016, we concluded that we no longer met the accounting criteria for consolidation of our Syrian and Sudanese subsidiary due to a loss of control, and therefore we deconsolidated them both as of 31 December 2016.

The deconsolidation of the Syrian subsidiary resulted in the recognition of a negative impact on the consolidated income statement for the year 2016, in the amount of LBP 144,504 million, which includes:

- Negative impact of LBP 107,282 million deriving from losses from the translation into Lebanese Lira of the financial statements of the subsidiary previously recognized under equity and reclassified to the consolidated income statement; and
- Negative impact of LBP 37,222 million due to the full-write off of the net assets of the subsidiary.

The deconsolidation of the Sudanese subsidiary resulted in the recognition of a negative impact on the consolidated income statement for the year 2016, in the amount of LL 43,062 million, which includes:

- Negative impact of LBP 30,608 million deriving from losses from the translation into Lebanese Lira of the financial statements of the subsidiary previously recognized under equity and reclassified to the consolidated income statement; and
- Negative impact of LBP 12,454 million due to the full-write off of the net assets of the subsidiary.

As a consequence of the deconsolidation, effective 1 January 2017, the Group no longer included the results of the Syrian and Sudanese subsidiary in its consolidated financial statements. Further, dividends and inter-bank interest were recorded as income and expense upon receipt or payment. We will monitor the extent of our ability to control our Syrian and Sudanese operations as our current situation in Syria and Sudan may change over time and lead to consolidation at a future date.
