INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

Report on the audit of the consolidated financial statements

Adverse opinion

We have audited the consolidated financial statements of The Lebanese Company for the Development and Reconstruction of Beirut Central District S.A.L. (the "Company") and its subsidiaries (collectively referred to the "Group"), which comprise the consolidated statement of financial position as at 31 December 2023 and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, because of the significance of matters described in the Basis for adverse opinion section of our report, the accompanying consolidated financial statements do not present fairly the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS Accounting Standards) (IFRSs).

Basis for adverse opinion

1. As explained in note 2.2 to the consolidated financial statements, the Group's functional currency is the Lebanese Lira which is the currency of a hyperinflationary economy and management has not applied the requirements of IAS 29 "Financial Reporting in Hyperinflationary Economies" in the preparation of the Group's consolidated financial statements in its functional currency for the year ended 31 December 2023 nor did management consider its effect on forecasts and discount rates used in accounting estimates before translation to the presentation currency. This is not in accordance with IFRSs. Had the Group applied the requirements of IAS 29, many elements and disclosures in the accompanying consolidated financial statements, including the comparative financial information for the year ended 31 December 2022, would have been materially different. The effects on the consolidated financial statements arising from this departure have not been determined. Our opinion in the prior year was also modified in respect of this matter.
2. As disclosed in note 2.1 to the consolidated financial statements, the consolidated financial statements have been presented in US Dollars based on the Company's accounting records which are maintained in US Dollars. For the purpose of presenting its consolidated financial statements in US Dollars, the Group did not translate its consolidated financial statements from its functional currency into the presentation currency which constitutes a departure from IAS 21. In addition, the Group translated its assets and liabilities, denominated in foreign currencies, as at 31 December 2023 and all transactions in foreign currencies that occurred during the year then ended, using the official published exchange rates. However, other exchange rates were introduced through legal exchange mechanisms, and several exchange rates became available, depending on the source and nature of the operation or balance. As stated in IAS 21 "The Effects of Changes in Foreign Exchange Rates", when several exchange rates are available, the rate to be used is that at which the future cash flows represented by the transaction or balance could have been settled if those cash flows had occurred at the measurement date. Management did not use the rate at which the future cash flows would have been expected to be settled. This is not in accordance with IFRSs. Had the Group translated its consolidated financial statements from its functional currency into the presentation currency for the year ended 31 December 2023 and prior years, and had the Group used the rate at which the future cashflows could have been settled, many accounts and disclosures in the consolidated financial statements, including the comparative financial information for the year ended 31 December 2022, would have been materially different. The effects on the consolidated financial statements of the departure from IAS 21 and the uncertainties relating to the appropriate exchange rates have not been determined. Our opinion in the prior year was also modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

Basis for adverse opinion (continued)

3. Loss on foreign exchange, net is reported in the consolidated statement of profit or loss at US\$ 14.4million (2022: gain on foreign exchange, net of US\$ 29.5million). We were unable to obtain sufficient appropriate audit evidence about the loss on foreign exchange, net because we could not inspect documentation relating to this amount. Consequently, we were unable to determine whether any adjustments to this amount were necessary. Our opinion in the prior year was also modified in respect of this matter.
4. Cash and bank balances, which are carried in the consolidated statement of financial position at US\$ 26.9million (2022: US\$ 46.1million), include balances deposited with banks in Lebanon which are carried at US\$ 19.0million (2022: US\$ 20.4million). Management has not stated balances deposited with banks in Lebanon after taking into account the uncertainties disclosed in note 2 of the consolidated financial statements, which constitutes a departure from IFRSs. We were unable to determine the adjustments necessary to this amount. Our opinion in the prior year was also modified in respect of this matter.
5. Investments in associates and joint ventures which are carried in the consolidated statement of financial position at US\$ 378.2million (2022: US\$ 355.4million), include a long-term loan to a joint venture of US\$ 7.0million (2022: US\$ 8.0million) net of an allowance for expected credit losses of US\$ 28.5million (2022: US\$ 28.5million). Management has not stated long term loan to a joint venture after taking into account the full impact of the economic crisis in Lebanon, which constitutes a departure from IFRSs. We were unable to determine the adjustments necessary to this amount. Our opinion in the prior year was also modified in respect of this matter.
6. Investment properties, which are carried in the consolidated statement of financial position at US\$ 593.4million (2022: US\$ 608.8million), exhibited indicators of impairment at the reporting date. Management did not perform an estimate of the recoverable amount of investment properties to determine whether any impairment loss has occurred and should have been recorded, which constitutes a departure from IFRSs. We were unable to determine the adjustments necessary to this amount. Our opinion in the prior year was also modified in respect of this matter.
7. Inventory of land and projects in progress are carried in the consolidated statement of financial position at US\$ 854.0million. Management did not determine if the net realizable value of inventory of land and projects in progress exceeded their cost, which constitutes a departure from IFRSs. We were unable to determine whether any adjustments to this amount were necessary.
8. The Group has not consolidated the results of subsidiary Solidere Management Services S.A.L. from 1 January 2023 until the date of disposal and has determined the gain on disposal of subsidiary, which is reported in the consolidated statement of profit or loss and other comprehensive income at US\$ 2.4million, by deducting the carrying amount of the net assets at 31 December 2022 from the sale proceeds. Under IFRSs, the Group should have consolidated the results of this subsidiary and determined the gain on disposal of subsidiary by deducting the carrying amount of the net assets at the date of disposal from the sale proceeds. Had Solidere Management Services S.A.L. been consolidated and the gain on disposal of subsidiary been determined correctly, many elements in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of cash flows would have been affected. The effects on the consolidated financial statements of these matters have not been determined.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L. (continued)

Basis for adverse opinion (continued)

9. Inventory of land and projects in progress are carried in the consolidated statement of financial position at US\$ 854.0million (2022: US\$ 856.0million). Management has stated inventory of land and projects in progress inclusive of maintenance and other expenses, which constitutes a departure from IFRSs. The Group's records indicate that had management not stated inventory of land and projects in progress inclusive of maintenance and other expenses, an amount of US\$ 4.3million (2022: US\$ 4.3million) would have been required to reduce inventory of land and projects in progress. Accordingly general and administrative expenses would have been increased by nil (2022: US\$ 4.3million), the loss for the year would have been increased by nil (2022: US\$ 4.3million) and total equity would have been reduced by US\$ 4.3million (2022: US\$4.3million). Our opinion in the prior year was also modified in respect of this matter.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Lebanon, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the year ended 31 December 2023. Except for the matters described in the Basis for Adverse Opinion section of our report, we have determined that there are no other key audit matters to communicate in our report.

Other information

Management is responsible for the other information. Other information consists of the information included in the Group's Annual Report other than the consolidated financial statements and our auditor's report thereon. The Group's Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error. In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

**INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.
(continued)**

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

**INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY
FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.
(continued)**

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

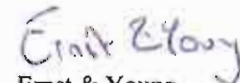

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

1 CORPORATE INFORMATION

The Lebanese Company for the Development and Reconstruction of Beirut Central District S.A.L. (SOLIDERE) (the "Company") was established as a Lebanese joint stock company on 5 May 1994 based on Law No. 117/91 and was registered on 10 May 1994 under Commercial Registration No. 67000. The articles of incorporation of the Company were approved by Decree No. 2537 dated 22 July 1992.

The objective of the Company is to acquire real estate properties, to finance and ensure the execution of all infrastructure works in the Beirut Central District (BCD) area, to prepare and reconstruct the BCD area, to reconstruct or restore the existing buildings, to erect buildings and sell, lease or exploit such buildings and lots and to develop the landfill on the seaside.

The duration of the Company is 35 years from the date of establishment 5 May 1994.

An extraordinary general assembly dated 13 November 2006 resolved to amend the objective of the Company to include providing services and consultancy in real estate development for projects outside the BCD area and all over the world.

During 2007, the Company granted Solidere International PLC (an associate) the right to use the "Solidere" brand in the execution of real estate projects outside the Beirut Central District area of Lebanon.

The Company's shares are listed on the Beirut stock exchange.

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

2.1 Operating environment of the Company

Lebanon has been witnessing, since the last quarter of 2019, severe events that have set off an interconnected fiscal, monetary and economic crisis as well as deep recession that have reached unprecedented levels. Sovereign credit ratings have witnessed a series of downgrades by all major rating agencies and reached the level of default when, on 7 March 2020, the Lebanese Republic announced that it will withhold payment on the bonds due on 9 March 2020, which was followed by another announcement on 23 March 2020, for the discontinuation of payments on all of its USD denominated Eurobonds.

Throughout this sequence of events, the ability of the Lebanese government and the banking sector in Lebanon to borrow funds from international markets was significantly affected. Banks have imposed de-facto capital controls, restricted transfers of foreign currencies outside Lebanon, significantly reduced credit lines to companies and withdrawals of cash to private depositors, all of which added to the disruption the country's economic activity, as the economic model of Lebanon relies mainly on imports and consumption.

Lebanon's government foresees cancelling "a large part" of the central bank's foreign currency obligations to commercial banks and dissolving non-viable banks. It includes several measures that are prerequisites to unlock funds from a preliminary deal with the International Monetary Fund that could help pull the country out of a three-year financial meltdown.

In addition, since October 2023, and as a direct spillover of the conflict in the Middle East, armed confrontation with Israel has been escalating, resulting in a significant number of displaced and massive destruction to local infrastructure, adding strain to Lebanon's crisis-ridden economy. The armed conflict and its spillovers have had negative knock-on effects on Lebanese economic growth in 2023, continuing into 2024. A ceasefire was announced on 26 November 2024. Management is closely monitoring the situation and its impact on the Company's separate financial position, financial performance and cash flows.

2.1 Operating environment of the Company (continued)

Foreign currencies and exchange rates

The difficulty in accessing foreign currencies lead to the emergence of a parallel market to the peg whereby the price to access foreign currencies has been increasing constantly, deviating significantly from the peg of LL 1,507.5 to the USD which was increased to LL 15,000 to the USD starting February 2023 and subsequently to LL 89,500 to the USD starting January 2024.

Several exchange rates have emerged since the last quarter of 2019 that vary significantly among each other and from the official one, mainly the parallel exchange markets rate and the Sayrafa rate, in addition to different exchange rates adopted for commercial transactions purposes in Lebanon.

The Sayrafa corresponds to a floating system and the rates are published on the website of the Central Bank of Lebanon. The rates were as follows for the years ended 31 December 2023 and 2022:

	2023		2022	
	Rate as at 31 December LL	Average rate for the year ended 31 December LL	Rate as at 31 December LL	Average rate for the year ended 31 December LL
US Dollar	89,500	79,117	38,000	25,907

The Sayrafa platform is not available for the purchase and sale of "local" foreign currency bank accounts which are subject to defacto capital control.

On 9 January 2023, the Ministry of Finance issued decision No.2 regarding the application of article 35 of the government Budget Law 2022 No. 10 dated 15 November 2022 in connection with the conversion into LL of salaries paid in foreign currencies for the purpose of calculating payroll tax:

- For amounts paid in fresh funds in foreign currency: Apply a reference rate of LL 8,000/US\$ for amounts paid during the period ending 15 November 2022 and a reference rate of LL15,000/US\$ for amounts paid after 15 November 2022.
- Apply a reference rate of LL 8,000/US\$ for amounts paid in restricted (onshore) funds in foreign currency up to US\$3,000.
- Apply a reference rate of LL 1,507.5/US\$ for amounts paid in restricted (onshore) funds in foreign currency that are in excess of US\$ 3,000.

Accordingly, translation of all assets and liabilities and foreign currency transactions at the official exchange rate does not always represent a reasonable estimate of expected cash flows in Lebanese Lira that would have to be generated/used from the realization of such assets or the payment of such liabilities at the date of the transaction or at the date of the separate financial statements.

The separate financial statements have been presented in US Dollars based on the Company's accounting records which are maintained in US Dollars. For the purpose of presenting its separate financial statements in US Dollars, the Company did not translate its separate financial statements from its functional currency into the presentation currency which constitutes a departure from IAS 21. In addition, the Company has applied the official published exchange rates below, in converting monetary assets and liabilities in foreign currency and transactions in foreign currency, regardless of whether they are onshore or offshore, to the Company's functional currency.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.1 Operating environment of the Company (continued)

Foreign currencies and exchange rates (continued)

	2023		2022	
	<i>Rate as at 31 December LL</i>	<i>Average rate for the year ended 31 December LL</i>	<i>Rate as at 31 December LL</i>	<i>Average rate for the year ended 31 December LL</i>
US Dollar	15,000.00	13,875.63	1,507.50	1,507.50
Euro	16,695.00	15,049.23	1,603.83	1,594.38

The exchange rates above consist of the official exchange rates published by the Central Bank of Lebanon. Subsequent to period end, in January 2024, the official exchange rate increased to US\$/LL 89,500 as published by the Central Bank of Lebanon.

The existence of multiple foreign exchange rates as well as the accessibility to such rates, necessitates the review of the appropriate exchange rates that entities should use in accounting for and reporting their foreign currency transactions. The judgment of which foreign exchange (FX) rate to use depends on the official FX rate at which the future cash flows represented by the transaction or balance could have been settled if those cash flows had occurred at the measurement date. This should take into account the specific facts and circumstances relating to each transaction or balance.

In the light of uncertainties, management did not determine the rates at which future cash flows represented by the transaction or balance could have been settled depending on its source and nature, if those cash flows had occurred at the measurement date. Accordingly, the Company has applied the official exchange rates as mentioned in the above table for transactions and balances in foreign currencies.

As the official exchange rate significantly deviates from the exchange rates on the Sayrafa Platform and the parallel markets, this does not represent a reasonable estimate of expected cash flows that would have to be generated/used from the realization of such assets or the payment of such liabilities at the date of the transaction or of the financial statements. The valuation of the Company's assets and liabilities in foreign currencies at a different rate is expected to significantly impact the Company's separate financial statements.

It remains unclear how this will evolve, and the Company continues to monitor the situation closely. Any and all such events mentioned above will add up to the already material adverse prospects on the Company's business, financial condition, results of operations, prospects, liquidity and capital position.

Taxes, social security contributions and related provisions

Due to the availability of several exchange rates in the Lebanese market, the determination of taxes, social security contributions and related provisions in relation to transactions or activities in foreign currencies are highly sensitive to the exchange rates applied. As a result of the unprecedented events and circumstances, there is high level of judgment involved in deciding on the exchange rates used and any change in these exchange rates, would result in a different determination of taxes, social security contributions and related provisions.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.2 Basis of preparation

The separate financial statements have been prepared in accordance with International Financial Reporting Standards.

The separate financial statements are presented in US Dollars being the currency of the Company's capital in accordance with Decree 2537 and accordingly, represents the Company's reporting currency. The Company's functional currency is the Lebanese Lira.

These separate financial statements relate to Solidere and do not include the Company's share in the results and equity of the joint ventures, subsidiaries and associates.

Separate financial statements are prepared for statutory reasons. Consolidated financial statements are prepared and are available at the Company's headquarters.

The separate financial statements are prepared under the historical cost convention.

Certain prior year information are reclassified to conform with current year presentation.

In view of the long term nature and particulars of the Company's operations, the separate financial statements are presented on the basis that the operations have realization and liquidation periods spread over the duration of the Company and which are subject to market conditions and other factors commonly associated with real estate development projects; as such, the separate statement of financial position is shown as "unclassified" without distinction between current and long-term components. However, classification of financial position items is disclosed in note 31.

Hyperinflation in Lebanon

As at 31 December 2023 and 2022, all conditions have been met for the Company's separate financial statements to incorporate the inflation adjustment provided under IAS 29 "Financial Reporting in Hyperinflationary Economies". IFRS requires that financial statements of any entity whose functional currency is the currency of a hyperinflationary economy be restated into the current purchasing power at the end of the reporting period. Paragraph 4 of IAS 29 states that it is preferable for all entities that report in the currency of a hyperinflationary economy to apply the standard at the same date. In order to achieve uniformity as to the identification of an economic environment of this kind, IAS 29 provides certain guidelines: a cumulative three-year inflation rate exceeding 100% is a strong indicator of hyperinflation, but also qualitative factors, such as analyzing the behavior of population, prices, interest rates and wages should also be considered.

The Lebanese Central Administration of Statistics reported 3-year and 12-month cumulative rates of inflation of 2,005% and 192%, respectively, as at 31 December 2023 (2022: 1,670% and 122%, respectively). Qualitative indicators, following the deteriorating economic condition and currency controls, also support the conclusion that Lebanon is a hyperinflationary economy for accounting purposes for periods ending on or after 31 December 2020.

Therefore, entities whose functional currency is the Lebanese Lira, should restate their financial statements to reflect the effects of inflation in conformity with IAS 29. Such restatement shall be made as if the Lebanese economy has always been hyperinflationary; using a general price index that reflects the changes in the currency's purchasing power.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.2 Basis of preparation (continued)

The effects of the application of IAS 29 are summarised below:

- (a) Financial statements must be adjusted to consider the changes in the currency's general purchasing power, so that they are expressed in the current unit of measure at the end of the reporting period.
- (b) In summary, the restatement method under IAS 29 is as follows:
 - (i) Monetary items are not restated in as much as they are already expressed in terms of the measuring unit current at the closing date of the reporting period. In an inflationary period, keeping monetary assets generates loss of purchasing power and keeping monetary liabilities generates an increase in purchasing power. The net monetary gain or loss shall be included as income/loss for the period for which it is reported.
 - (ii) Non-monetary items carried at the current value of the end date of the reporting period shall not be restated to be presented in the balance sheet, but the restatement process must be completed in order to determine into the current purchasing power at the end of the reporting period the income derived from such non-monetary items.
 - (iii) Non-monetary items carried at historical cost or at the current value of a date prior to the end of the reporting period are restated using coefficients that reflect the variation recorded in the general level of prices from the date of acquisition or revaluation to the closing date of the reporting period, then comparing the restated amounts of such assets with the relevant recoverable values. Depreciation charges of property, plant and equipment and amortisation charges of intangible assets recognised in profit or loss for the period, as well as any other consumption of non-monetary assets will be determined based on the new restated amounts.
 - (iv) Income and expenses are restated from the date when they were recorded, except for those profit or loss items that reflect or include in their determination the consumption of assets carried at the purchasing power of the currency as of a date prior to the recording of the consumption, which are restated based on the date when the asset to which the item is related originated; and except those profit or loss items originated from comparing two measurements expressed in the purchasing power of currency as of different dates, for which it is necessary to identify the compared amounts, restate them separately, and compare them again, but with the restated amounts.
 - (v) At the beginning of the first year of application of the restatement method of financial statements in terms of the current measuring unit, the prior-year comparatives are restated in terms of the measuring unit current at the end of the current reporting period, the equity components, except for reserved earnings and undistributed retained earnings, shall also be restated, and the amount of undistributed retained earnings shall be determined by the difference between net assets restated at the date of transition and the other components of opening equity expressed as indicated above, once all remaining equity components are restated.

As of the date of the accompanying separate financial statements, Management is temporarily unable to apply the above-mentioned standard, nor is it able to quantify the effect that the application of IAS 29 would have on the presented separate financial statements due to the following considerations: the significant divergence in exchange rates, the lack of consensus on the general price index and the lack of views of relevant regulators, including tax authorities. However, management estimates such effects to be significant.

This situation must be taken into account when interpreting the information reported by the Company in the accompanying separate financial statements including its separate statement of financial position, separate statement of comprehensive income and separate cash flow statement.

The Company is currently assessing the date at which it will apply IAS 29. The application of IAS 29 is very complex and requires the Company to develop new accounting software and processes, internal controls and governance framework. Accordingly, the Company has postponed the application of IAS 29 and incurring costs for developing accounting processes and a governance framework until the Company is comfortable that such application would provide the users with more relevant information.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.3 Changes in accounting policies

New and amended standards and interpretations

The accounting policies adopted in the preparation of the separate financial statements are consistent with those used in the previous year, except for the adoption of the amendment and improvements to standards effective as of 1 January 2023:

- *IFRS 17 Insurance contracts*
- *Definition of accounting estimates – Amendments to IAS 8*
- *Disclosure of accounting policies – Amendments to IAS 1 and IFRS Practice Statement 2*
- *Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12*
- *International Tax Reform—Pillar Two Model Rules – Amendments to IAS 12*

The adoption of the above new amendments and improvements to standards did not have a material impact on the separate financial position or performance of the Company.

Standards issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's separate financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

- *Amendments to IFRS 16: Lease Liability in a Sale and Leaseback*
- *Amendments to IAS 1: Classification of Liabilities as Current or Non-current*
- *Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7*
- *Lack of exchangeability – Amendments to IAS 21*
- *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28).*
- *IFRS 18 – Presentation and Disclosure in Financial Statement*

The Company does not expect these amendments to have a material impact on the Company's separate financial statements.

2.4 Material accounting policies

Foreign currencies

The functional currency of the Company is the Lebanese Lira whereas the presentation currency is the US Dollars. Transactions denominated in other currencies are translated into Lebanese Lira at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities stated in currencies other than the Lebanese Lira are retranslated at the rates of exchange prevailing at the end of the year. The resulting exchange gain or loss is reflected in the separate statement of comprehensive income. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Also, when an entity's functional currency is the currency of a hyperinflationary economy, the entity shall restate its financial statements in accordance with IAS 29 before applying the translation method set out in paragraph 42, except for comparative amounts that are translated into a currency of a non-hyperinflationary economy. When the economy ceases to be hyperinflationary and the entity no longer restates its financial statements in accordance with IAS 29, it shall use as the historical costs for translation into the presentation currency the amounts restated to the price level at the date the entity ceased restating its financial statements.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability.

(i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of accounts and notes receivable that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Financial assets at amortised cost (debt instruments)

This category is the most relevant to the Company. The Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

Impairment of financial assets

The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For accounts and notes receivable and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Financial instruments (continued)

Impairment of financial assets (continued)

The Company considers a financial asset in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Contract balances

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

A receivable represents the Company's right to an amount of consideration that is unconditional, only the passage of time is required before payment of the consideration is due.

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

(ii) *Derecognition*

Financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flow in full without material delay to a third party under a 'pass through' arrangement, and
- Either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is derecognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the Company's continuing involvement is the amount of the transferred asset that the Company may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Company's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Financial instruments (continued)

Financial liabilities (continued)

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, and financial guarantee contracts issued by the Company, are measured in accordance with the specific accounting policies set out below.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability and the difference in the respective carrying amount is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are only offset and the net amount is reported in the separate statement of financial position when there is a legally enforceable right to set-off the recognized amounts and the Company intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

Inventory of land and projects in progress

Inventory of land and projects in progress are stated at the lower of cost and estimated net realizable value. Costs include appraisal values of real estate plots constituting the contributions in kind to capital (A shares), in addition to capitalized costs. Capitalized costs comprise the following:

- Project direct costs and overheads related to the properties development, construction and project management as a whole, as well as acquisition, zoning, and eviction costs.
- Indirect costs, such as overheads, which were partially allocated to inventory of land and projects in progress.
- Borrowing cost

Net realisable value represents the estimated selling price, less all estimated costs of completion and costs to be incurred in marketing and selling.

Investment properties

Investment properties which represent properties held to earn rent and/or for capital appreciation are measured initially at cost and subsequent to initial recognition are stated at cost less accumulated depreciation and any impairment in value.

Depreciation is computed using the straight-line method over the estimated useful lives of the properties, excluding the cost of land, based on the following annual rates:

Buildings	2%
Furniture, fixtures, equipment and other assets	8%-20%

The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of investment properties. All other expenditure is recognized in the separate statement of comprehensive income as the expense is incurred.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by the end of owner occupation, commencement of an operating lease to another party or completion of construction or development.

Transfers are made from investment properties when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sell.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Investments in subsidiaries

The Company's investments in subsidiaries are accounted for under the cost method of accounting. Subsidiaries are entities that the Company controls. The Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Investments in associates and joint ventures

The Company's investments in associates and joint ventures are accounted for under the equity method of accounting in the consolidated financial statements and at cost in the separate financial statements.

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Property and equipment

Property and equipment are stated at cost net of accumulated depreciation and any impairment in value. Depreciation is computed using the straight-line method over the estimated useful lives of the assets based on the following annual rates:

Buildings	2%-6%
Marina	2%
Furniture and fixtures	8%
Freehold improvements	8%
Machines and equipment	6%-20%

Expenditure incurred to replace a component of an item of property and equipments that is accounted for separately is capitalized and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of property and equipment. All other expenditure is recognized in the separate statement of comprehensive income as the expense is incurred.

Impairment of tangible assets

At each separate statement of financial position date, the carrying amounts of tangible assets (investment properties, property and equipment) are reviewed to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

Recoverable amount is defined as the higher of:

- Fair value that reflects market conditions at the balance sheet date less cost to sell, if any.
- Value in use assessed as the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life, only for applicable assets with cash generation units, as applicable.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Impairment of tangible assets (continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase. The impairment loss is recognized in the separate statement of comprehensive income.

Treasury shares

Own equity instruments which are reacquired (treasury shares) are deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Gains on sale of treasury shares are recorded under a reserve account in equity. Losses in excess of previously recognized gains are charged to retained earnings.

Revenue recognition

The standard introduces a 5 step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

Revenue on land and real estate sales transactions is recognized when control is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services and when the following conditions are met:

- A sale is consummated, and contracts are signed;
- The buyer's initial (in principle over 25% of sales price) and continuing investments are adequate to demonstrate a commitment to pay for the property;
- The Company's receivable is not subject to future subordination; and
- The Company has transferred to the buyer the usual risks and rewards of ownership in a transaction that is in substance a sale and the Company does not have a substantial continuing involvement with the property.

If any of the above conditions is not met, the initial payments received from buyers are recorded under deferred revenues. Amounts are released to revenue as and when the above conditions are fulfilled.

Financial assets received in return for the sale of land and real estate are valued at fair market value.

Revenue from rendering of services and broadband network is recognized when control of the services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services.

Rental income

Rental income arising from leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is accounted for on a straight-line basis over the lease terms and is included in revenue in profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Cost of land sales

Cost of properties sold is determined on the basis of the built-up area (BUA) - permitted right to build in square meters - on the sold plots based on the terms of the sales agreements. The cost of one square meter of BUA is calculated by dividing, total estimated cost of the land development project over total available BUA after deducting of the BUA relating to recuperated properties and those relating to the religious and public administrations.

Cash and cash equivalents

For the purpose of the separate statement of cash flows, cash and cash equivalents consists of cash on hand, checks for collection, bank balances, and short-term deposits with an original maturity of three months or less.

Trade and other payables

Trade and other payables are initially measured at fair value. Due to their short-term nature, the carrying amount of trade and other payables approximates their fair values as of the date of the separate statement of financial position. Average maturity dates of trade payables range between 30-90 days. Short duration payables with no stated interest rate are measured at original invoice amount unless the effect of imputing interest is significant.

Taxation

Current tax

Income tax is determined and provided for in accordance with the Lebanese income tax law. Income tax expense is calculated based on the taxable profit for the year. Taxable profit differs from net profit as reported in the separate statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in future years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates enacted at the balance sheet date. Provision for income tax is reflected in the separate statement of financial position net of taxes previously settled in the form of withholding tax. Taxable losses are allowed to be carried forward for the following three consecutive years.

Deferred tax

Deferred income tax is provided, using the liability method, on all temporary differences at the date of the separate statement of financial position between the tax bases of assets and liabilities and their carrying amounts.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on laws that have been enacted at the date of the separate statement of financial position.

Deferred income tax assets are recognized for all deductible temporary differences and carry-forward of unused tax assets and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax assets and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Taxes payable on unrealized revenues are deferred until the revenue is realized.

Current tax and deferred tax relating to items that are credited or charged directly to comprehensive income are recognized directly in comprehensive income.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the date of the statement of financial position, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of these cash flows.

Employees' end-of-service indemnities

The Company provides end-of-service indemnity to its employees. The entitlement to these benefits is based on the employees' final salary and length of service, subject to the completion of a minimum service period and for those employees wishing to settle their accounts. The expected costs of these benefits are accrued over the period of employment.

Dividends on shares

Dividends on shares are recognized as a liability and deducted from equity when they are approved by the general assembly of the Company's shareholders. Interim dividends are deducted from equity when they are declared and no longer at the discretion of the Company.

Dividends for the year that are approved after the reporting date are disclosed as an event after the reporting date.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the separate financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

2 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES (continued)

2.4 Material accounting policies (continued)

Fair value measurement (continued)

For assets and liabilities that are recognized in the separate financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

In the application of the accounting policies described in note 2.4 to the separate financial statements, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the separate financial statements continue to be prepared on the going concern basis.

Impairment of investments in joint ventures, subsidiaries and associates

The Company assesses at each reporting date whether there is indication that an investment may be impaired. If any indication exists, the Company estimates the investment's recoverable amount. When the cost of the investment exceeds the recoverable amount, the investment is considered impaired and a provision for impairment is setup representing the difference between the investment's recoverable amount and its carrying value. The provision is charged to the separate statement of comprehensive income.

Estimation of net realizable value for inventory of property

Inventory property is stated at the lower of cost and net realizable value (NRV). NRV for completed inventory property is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Company, based on comparable transactions identified by the Company for properties in the same geographical market serving the same real estate segment. NRV in respect of inventory of property under construction is assessed with reference to market prices at reporting date for similar completed property, less estimated cost to complete construction, and an estimate of the time value of money to the date of completion.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

11 BASIC AND DILUTED LOSS PER SHARE

The computation of loss per share is based on net loss for the year and the weighted average number of outstanding class (A) and (B) shares during each year net of treasury shares held by the Company.

The following table shows the net loss for the year and share data used to calculate loss per share:

	2023 US\$	2022 US\$
Net loss for the year	(36,782,386)	(11,129,207)
Weighted average number of shares	<u>161,053,174</u>	<u>161,192,243</u>
Basic and diluted loss per share	<u>(0.229)</u>	<u>(0.069)</u>

There were no transactions involving common shares or potential common shares between the reporting date and the date of the completion of these separate financial statements which would require the restatement of earnings per share.

12 CASH AND BANK BALANCES

	2023 US\$	2022 US\$

16 INVENTORY OF LAND AND PROJECTS IN PROGRESS (continued)

- (a.1) Acquired properties consist mainly of the aggregate initial appraised value attributed to the plots included in the BCD area of US\$ 1,170,001,290 net of the recuperated properties. The aggregate appraised value is determined in accordance with Decree No. 2236 (dated 19 February 1992 based on the decision of the Higher Appraisal Committee, which was established in accordance with Law No. 117/91). Acquired properties include the value of purchased and exchanged properties as well.

Law No. 117/91 stated the requirements for property recuperation and exemption. In this respect properties appraised at US\$ 255million were recuperated by original owners and properties appraised at US\$ 133million were not claimed for recuperation.

- (a.2) Pre-acquisition costs include technical and master plan studies incurred during the set up period of the Company.

- (a.3) Infrastructure costs consists of the following:

	<i>2023</i>	<i>2022</i>
	<i>US\$</i>	<i>US\$</i>
Sea front defense	360,768,839	360,768,839
Work executed in the traditional BCD area	209,374,818	209,374,818
Land reclamation and treatment	103,897,957	103,897,957
Borrowing costs	48,530,457	48,530,457
Electricity power station	42,931,751	42,931,751
Other costs	198,889,732	198,481,918
	<u>964,393,554</u>	<u>963,985,740</u>

- (a.4) Eviction costs represent the costs of relocating previous settlers out of the BCD area which were mainly paid through the Central Fund for the Displaced (a public authority). This caption is stated net of US\$ 22.2million as at 31 December 2023 (2022: the same) representing a 10% charge on recuperated properties appraised values collected from original owners other than religious and governmental recuperated properties.

- (a.5) Capitalized costs represent allocation of direct overheads. Costs capitalized during the year ended 31 December 2022 before indirect cost reallocation amounted to US\$ 88,345. No costs were capitalized during the year ended 31 December 2023 (note 7).

- (b) Real estate development projects include the following:

	<i>2023</i>	<i>2022</i>
	<i>US\$</i>	<i>US\$</i>
Construction and rehabilitation of buildings	750,986,542	750,896,000

17 INVESTMENT PROPERTIES, NET (continued)

Investment properties include rented and available for rent properties. These represent “Beirut Souks”, “BCD Cinemas”, a property leased out to the Ministry of Foreign Affairs and Emigrants for use by an international agency, residential complexes, an embassy complex, and other restored buildings.

Disposals of land, building and other assets during 2023 resulted in a gain of US\$ 254,774 recorded under “Gain on sale and disposal of investment properties” in the separate statement of comprehensive income for the year ended 31 December 2023 (2022: US\$ 1,025,941).

Depreciation for investment properties in the amount of US\$ 15,125,272 for the year 2023 (2022: US\$ 15,088,966) is recorded under “Charges on rented properties” in the separate statement of comprehensive income (note 5).

Because of the uncertainties related to the market appetite and unavailability of comparable transactions and prolonged economic crisis in Lebanon, management was unable to assess whether there are indications that the investment properties might be impaired.

- (a) The Company entered into a joint venture agreement on 11 February 2004, with Stow Waterfront S.A.L. (Holding) to establish Beirut Waterfront Development S.A.L. with a 50% stake in the joint venture's total capital. The main activity of the joint venture is to develop, operate, manage, exploit and sell real estate properties in the Marina area in Beirut Central District. As per the terms of the agreement, on 31 December 2005, the Company sold properties with an aggregate cost of US\$ 10,100,000 from inventory of land and projects in progress, to the joint venture for a total consideration of US\$ 31,600,000. As a result of the sale transaction, the Company realized 50% of the gain on the sale in the amount of US\$ 10,750,000 in profit or loss in 2005 and deferred the unrealized gain on sales in the amount of US\$ 10,750,000, recorded under "deferred revenues" in the statement of financial position, to be realized after realization of the sale of the properties to third parties. In 2021, the related properties were transferred to the Company and the amount of US\$ 10,750,000 was recorded under "Other income" in the separate statement of comprehensive income.

On 27 June 2006, the Company granted Beirut Waterfront Development S.A.L. a long term loan against issuance of bonds for a total amount of US\$ 25,200,000. This loan is subject to an annual interest of Libor + 2% but not less than 9%, payable on 30 June of each year. The total amount of this loan was due on 30 June 2011. During 2011, the maturity of the above loan was extended to 30 June 2016 with the same terms and conditions of the previous agreement and the accumulated interest up to 30 June 2011 in the amount of US\$ 11,340,000 was capitalized with the original principal. The new balance of the accumulated interest recorded under "prepayments and other assets" amounted to US\$ 21,375,900 as at 31 December 2017.

During 2018, the Company's Board of directors decided to stop accruing interest and to recycle the deferred interest amounting to US\$ 32,715,900 to the separate statement of comprehensive income. The Company setup provisions for the full amount recognized against long term loan in the capitalized portion of US\$ 11,340,000 and against accrued interest on long term loan in the amount of US\$ 21,375,900. Also, an additional provision was set up in previous years against the principle of the long-term loan and amounted to US\$ 14,450,000.

During 2023, the Company received from Beirut Waterfront Development S.A.L. a total amount of US\$ 1,000,000.

- (b) On 11 July 2023, the Company sold Solidere Management Services S.A.L for a total amount of US\$ 1,250,000 to a third party and recorded the amount of US\$ 1,125,067 in the separate statements of comprehensive income under "gain on sale of a subsidiary" for the year ended 31 December 2023 (note 14 (b)).

27 June 2016	0.1	16,302,491	13,890,907	2,411,584	2,421,957
27 June 2016	Stock dividend	19,070,313	19,070,313	-	-
		<u>1,204,196,128</u>	<u>1,146,979,322</u>	<u>57,216,806</u>	<u>57,352,316</u>

The outstanding balance of unpaid dividends relates mostly to unclaimed dividends and dividends pertaining to undelivered class (A) shares.

22 DEFERRED REVENUES

	2023 US\$	2022 US\$
Cash down payments and commitments on sale contracts	119,874,443	39,348,681
Deferred rental revenue and related deposits	11,483,435	10,981,326
	<u>131,357,878</u>	<u>50,330,007</u>

Deferred rental revenue and related deposits represent down payments on lease and rental agreements and reservation deposits for the rental of real estate properties.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

23 SHARE CAPITAL

Share capital

Capital as at 31 December 2023 and 2022 consists of 165,000,000 shares of US\$ 10 par value, authorized and fully paid and divided in accordance with Law 117/91 into the following:

- Class “A”, amounting to 100,000,000 shares represented contribution in kind of properties in the BCD, based on the resolutions of the High Appraisal Committee. All Class A shares were deemed to have been issued and outstanding since the establishment of the Company.
- Class “B”, amounting to 65,000,000 shares represented capital subscription in cash and are all issued and fully paid at the establishment of the Company.

Class “A” and Class “B” shares have the same rights and obligations.

Treasury shares

In its Board of directors meeting held on 20 August 2021, the Board of directors resolved to buy or sell up to 3% of the Company’s total shares. During 2023, the Company purchased 737,626 (2022: 31,590) of its shares, for the aggregate amount of US\$ 58.9 million (2022: US\$ 1.39million).

Movement of treasury shares recognized in the separate statement of financial position is as follows:

	2023		2022	
	Number of shares	Cost US\$	Number of shares	Cost US\$
Balance at 1 January	3,746,324	75,416,302	3,714,734	74,027,956
Purchase of treasury shares	737,626	58,895,440	31,590	1,388,346
Balance at 31 December	4,483,950	134,311,742	3,746,324	75,416,302

24 LEGAL RESERVE

In conformity with the Company’s articles of incorporation and the Lebanese Code of Commerce, 10% of the annual net income is required to be transferred to legal reserve until this reserve equals one third of capital. This reserve is not available for dividend distribution.

25 NOTES TO THE CASH FLOW STATEMENT

(a) Depreciation was applied as follows:

	2023 US\$	2022 US\$
Depreciation of investment properties (note 17)	15,125,272	15,088,966
Depreciation of property and equipment (note 19)	1,880,916	2,031,856
Depreciation charge for the year	17,006,188	17,120,822

OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

25 NOTES TO THE CASH FLOW STATEMENT (continued)

(b) Cash and cash equivalents comprise the following:

	2023 US\$	2022 US\$
Cash on hand (note 12)	1,475,365	5,698,642
Checks for collection (note 12)	43	8,774
Current accounts (note 12)	24,212,018	19,387,313
Short term deposits (note 12)	2,252,754	16,502,944
	<u>27,940,180</u>	<u>41,597,673</u>

Current bank accounts and short term deposits include an amount of US\$ 18,951,328 (2022: US\$ 12,339,045) subject to the de-facto capital control as disclosed in note 2.1.

(c) During the year ended 31 December 2023, the following non-cash item was excluded from the investing activities in the statement of cash flows:

- Decrease of US\$ 35,257 in "Property and equipment, net" against increase in "Investment properties, net".

During the year ended 31 December 2022, the following non-cash items were excluded from the operating and investing activities in the separate statement of cash flows:

- Decrease of US\$2,894,289 in "Property and equipment, net" against increase in "Investment properties, net".
- Decrease of US\$ 464,625 in "Prepayments and other assets" and decrease of US\$ 2,491,347 in "accounts and notes receivable" against a decrease of US\$ 2,955,972 in "accounts payable and other liabilities" representing provisions reallocated.
- Decrease of US\$ 9,392,000 in "accounts and notes receivable" against an increase in "inventory of land and projects in progress".

26 RELATED PARTIES TRANSACTIONS AND BALANCES

These represent transactions with related parties, i.e. significant shareholders, directors and senior management of the Company, and companies of which they are principal owners and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Company's management.

Transactions and balances with shareholders:

<i>GroupMed Insurance and Reinsurance Company S.A.L.</i>		
Insurance expenses	425,968	929,136

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

26 RELATED PARTIES TRANSACTIONS AND BALANCES (continued)

Transactions and balances with shareholders (continued)

Certain directors of the Company are members of the boards of directors of banks and an insurance company with whom the Company has various activities.

Transactions and balances with subsidiaries, associates and joint ventures

In addition to those disclosed in notes 14, 18 and 20 to the separate financial statements, below are other transactions and balances:

- During 2022, Solidere Management Services S.A.L., a subsidiary, rendered services to the Company in the aggregate amount of US\$ 15.9million recorded under "Depreciation of and charges on rented properties" in the separate statement of comprehensive income for the year ended 31 December 2022.

Transactions with key management personnel

Total benefits of executives and members of the Board of directors (including salary, bonus, remuneration, termination indemnity and others), included within "General and administrative expenses", for the year ended 31 December 2023 amounted to US\$ 5,192,100 (2022: US\$ 4,311,400).

Other related party transactions

During 2023, the Company purchased treasury shares through a related party and paid an aggregate amount of US\$ 98,240 (2022: US\$ 126,268) as trading commission fees included under cost of treasury shares (note 23).

Income arising and expenses incurred from the Company's transactions with other related parties, other than those disclosed in the financial statements, do not form a significant portion of the Company's operations.

27 COMMITMENTS AND CONTINGENCIES

- (a) Certain areas of the Lebanese tax legislation are subject to different interpretations in respect of the taxability of certain types of financial transactions and activities.

In 2022, the Company's books and records for years from 2016 till 2021 were subject to review by the Department of Income Tax at the ministry of finance. The final report of findings for the year 2016 issued on 24 July 2023, resulted in additional taxes and penalties in the amount of LBP 7billion. In addition, the final report of findings for the year 2017 issued on 18 July 2024, resulted in additional taxes and penalties in the amount of LBP2.66billion. The remaining years from 2018 till 2021 are still under review and management believes that the effect of this review will not have a material impact on the financial statements.

The Company's books and records for the years 2022 and 2023 have not been reviewed by the Department of Income Tax. Management believes that the effect of any such review will not have a material effect on the financial statements.

- (b) The Company's books and records for the years from 1 July 2019 till 2023 (inclusive) have not been reviewed by the Department of Value Added Tax. Management believes that the effect of any such review will not have a material effect on the financial statements.
- (c) An agreement between the Company and the Council for Development and Reconstruction ("CDR") was promulgated through Decree No. 5665 dated 21 September 1994, duly approved by the Council of Ministers. By virtue of this agreement, the Company was granted 291,800 sqm of the reclaimed land surface (totaling 608,000 sqm) against the execution by the Company of the sea landfill and infrastructure works.
- (d) The total cost for completion of the BCD project used by management as a basis for determination of cost of sales, and including projected cost to complete estimated at US\$175million, amounted to US\$ 2.3billion as at 31 December 2023 (2022: same).

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

27 COMMITMENTS AND CONTINGENCIES (continued)

- (e) Commitments for contracted works not executed as at 31 December 2023 amounted to approximately US\$ 6.8million (2022: US\$ 12.1million) noting that works on most of the projects have been suspended following the Beirut Port explosion and the current economic and political situation in the country.
- (f) In prior periods, the Company submitted to the “CDR” claims aggregating to US\$ 13.6million representing mainly change orders to infrastructure works in the traditional BCD which were incurred by the Company on behalf of the Government. These claims were neither approved nor confirmed by the concerned party nor recorded as receivables in the accompanying financial statements.
- (g) The Company is a defendant in various legal proceedings and has litigations pending before the courts and faces several claims raised by contractors and other parties. On the basis of advice received from the external legal counsel and the Company’s technical department, the directors are of the opinion that any negative outcome thereof, if any, would not have a material adverse effect on the financial position of the Company.
- (h) On 7 June 1997, the Company signed an exchange agreement with the Lebanese Government. By virtue of this agreement, the Company acquired additional built-up area of approximately 58,000sqm and 556,340 Class A shares in exchange for approximately 15,000 sqm and the payment of US\$ 38.7million to restore governmental buildings. US\$ 25million have already been paid and accounted for and the balance of US\$ 13.8million continues to be included under accounts payable. According to the terms of the agreement, the Company undertook to build a governmental building and to conclude ten finance leases over seven years for certain buildings belonging to the Lebanese Government. In 1999, the government canceled the exchange and finance lease agreement. The implementation and the effect of cancellation is not yet determined as at date and has not been reflected in the accompanying financial statements.
- (i) In prior periods, the Company submitted to the Ministry of Culture and Higher Education claims totaling US\$ 17.7million representing compensation for delays that resulted from excavation works. These claims were not yet approved nor confirmed by the concerned authorities nor recorded as receivables in the accompanying financial statements.
- (j) For the purpose of enhancing and improving land value in Zokak Al Blat area and to settle the recuperation of a lot in that area, the Company signed in 2002 an agreement with the Armenian Orthodox prelacy to demolish the building on the recuperated lot and to transfer corresponding building rights to another adjacent lot with minimum building rights of 4,900 sqm against ceding of owners’ shares from both lots. Additionally, a built-up area of 5,335 sqm (US\$ 2,700,000) remains as a contingent loss to the Company in case the prelacy decides to build this area within the next 10 years following this agreement. During November 2010, an agreement was signed by both parties in which it was agreed that November 2010 would be the start date for the 10 years period as it represents the date of finalization of parcellation and massing of plots number 1137 and 1138 of Zokak Al Blat area subject to the said agreements. This was not completed as of the date of issuance of these financial statements.
- (k) The Company is defendant in a lawsuit raised by a Group of jewelers and the jewelers’ syndicate. The Company appealed the court’s decision in which the Company was required to register certain commercial shops in Beirut Souks. The case was deferred until 4 April 2016 and then deferred to 13 June 2016. A final binding judgment was rendered on 4 July 2019 by the Supreme Court against the Company confirming in substance the judgment rendered by Beirut Court of Appeal and thus ordering the Company to register the units in Beirut Souks in the name of the plaintiffs. Other separate lawsuits were filed in connection with the original lawsuit. As the judgement by the Supreme Court supersedes the separate lawsuits that are still pending, management expects their outcome also to be against the Company. However, management does not expect any additional negative financial impact on the financial statements.
- (l) The Company has commitments and contingencies in the form of letters of guarantee in the amount of US\$ 1,499,841 as at 31 December 2023 (2022: US\$ 2,205,576).

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

27 COMMITMENTS AND CONTINGENCIES (continued)

(m) Following the resolution of the Company's shareholders during 1998 to amend the duration of the Company from 25 years to 75 years, the Council of Ministers issued decree No. 15909 limiting the extension of the Company's duration to 10 years, to become 35 years. During 2016, one of the property owners in the Beirut Central District, filed a claim before the Lebanese State *Shura* Council "مجلس شورى الدولة" against the State of Lebanon, to revoke and suspend the execution of the Council of Ministers decree No. 15909, and citing the Company as a third-party to the claim, which was rejected by the State *Shura* Council. During the same year, the plaintiff asked for a retrial.

On 12 October 2020, the designated Counselor "المستشار المقرر" of the State *Shura* Council, submitted a report setting forth her opinion and concluding that the request for a retrial is admissible, and which was concurred by the Assistant State Commissioner "المعاون" on 20 October 2020. On 16 March 2021, the Lebanese State *Shura* Council "مجلس شورى الدولة", decided to cancel the above decision, and requested to re-examine the case.

On 16 March 2021, the report of the Counsellor appointed by the Council of cases "مجلس" was issued, after the aforementioned opinion was referred to the Council of cases "مجلس القضايا" in the State *Shura* Council, that came to a conclusion contradictory to the report issued on 12 October 2020, where it decided to accept the request for a retrial inform but rejected it in substance, which was supported by the Assistant State Commissioner in his reading on 23 March 2021. The Company submitted its comments on the latest decision and reading on 26 May 2021.

The final outcome of the above cannot be presently determined.

28 CAPITAL MANAGEMENT

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions. No changes were made in the objectives, policies or processes during the years ended 31 December 2023 and 2022.

The capital structure of the Company consists of debt and equity. Debt consists of total liabilities less cash and bank balances. Equity comprises share capital, legal reserves and accumulated losses less treasury shares. The Company monitors capital on the basis of the debt-to-capital ratio (gearing ratio). The gearing ratio as at 31 December 2023 and 2022 was as follows:

	2023 US\$	2022 US\$
Total liabilities	261,762,045	191,750,799
Less: cash and bank balances	(26,821,691)	(40,479,184)
Net debt	234,940,354	151,271,615
Total equity	1,531,393,241	1,627,071,067
Gearing ratio	0.15	0.09

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

29 RISK MANAGEMENT

The Company's principal financial liabilities comprise dividends payable and accounts payable and other liabilities. The Company has various financial assets such as accounts and notes receivable, cash and bank balances, financial assets at amortized cost and other assets which arise directly from its operations. The main risks arising from the Company's financial instruments are liquidity risk, foreign currency risk and credit risk. The Board of directors reviews and agrees policies for managing each of these risks which are summarized below:

(a) Foreign currency risk

Currency risk arises from the possibility that changes in exchange rates will affect the values of the monetary assets and liabilities denominated in foreign currencies in case the Company does not hedge its currency exposure by means of hedging instruments.

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's monetary assets and liabilities are mostly denominated in US Dollar (US\$) and Lebanese Lira (LL). The LL official exchange rate against the US\$ has been constant since many years at US\$/LL 1,507.5 up to 31 January 2023. As disclosed in note 2 to the separate financial statements, on 1 February 2023, the official exchange rate increased to US\$/LL 15,000 as published by the Central Bank of Lebanon. In addition, subsequent to year end, during January 2024, the official exchange rate increased to US\$/LL 89,500 as published by the Central Bank of Lebanon. However, the de-facto capital control imposed by banks in Lebanon since October 2019 mainly on movement of funds in foreign currencies, caused the creation of the Sayrafa platform and parallel markets with wide range of price variance between the US Dollar official exchange rate and the market and Sayrafa exchange rate. Management is taking steps to address currency risk by matching sources and applications of funds, as applicable.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's credit risk is primarily attributable to its liquid funds, receivables and other assets.

(i) General approach: Bank balances and deposits and financial assets at amortized costs

The Company has liquid funds placed with Lebanese banks which are subject to de-facto capital control imposed by banks. As a result of the current financial and economic crisis in Lebanon disclosed in note 2, credit rating agencies have downgraded the credit rating for Lebanon to default category with little recovery, which resulted in an increase in significant credit risk for the Company's exposure to Lebanese banks. Also, the Company seeks to reduce the credit risk with respect to foreign bank deposits by dealing with reputable foreign banks. Refer to note 12. The Company accounts for its credit risk by appropriately providing for expected credit losses on a timely basis. In calculating the expected credit loss rates, the Company considers historical loss rates for each category of debtor and adjusts for forward looking macroeconomic data.

	2023		2022	
	Gross carrying amount US\$	Expected credit losses US\$	Gross carrying amount US\$	Expected credit losses US\$
Local banks	20,034,195	(1,118,489)	16,444,197	(1,118,489)
Foreign banks	6,430,577	-	19,446,060	-
Total	26,464,772	(1,118,489)	35,890,257	(1,118,489)

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

29 RISK MANAGEMENT (continued)

(b) Credit risk (continued)

(ii) Simplified approach

For trade accounts receivable, the Company applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for grouping of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company's credit risk exposure with respect to accounts and notes receivable is disclosed under note 13 to the separate financial statements.

The Company's maximum exposure to credit risk is the carrying amount as disclosed in notes 12, 13, 14 and 15 to the separate financial statements.

(c) Liquidity risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. Liquidity risk can be caused by market disruptions or credit downgrades, which may cause certain sources of funding to dry up immediately. The Company manages liquidity risk by maintaining adequate resources and ensuring the availability of necessary facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Given the restrictions imposed on foreign currency transfers outside the country and the significant variance between the US Dollar official exchange rate and the market exchange rate since October 2019 and the Sayrafa exchange rate since May 2021, management is considering options available to secure foreign currency inflows to settle any obligations in foreign currency.

Furthermore, as at 31 December 2023 and 2022, the Company's current liabilities exceeded its current assets. In order for the Company to meet its funding requirements and obligations, management setup a sales strategy and collection incentives to increase its liquidity. The Company's current liabilities are mostly from deferred income which is not expected to generate cash outflows.

The table below summarizes the maturity profile of the Company's liabilities as at 31 December 2023 and 2022 based on contractual undiscounted liabilities:

	2023				Total US\$
	No maturity US\$	Less than 3 months US\$	3-12 months US\$	1 to 5 years US\$

30 OPERATING SEGMENTS

For management purposes, the Company is organized into business units according to their operations and has two reportable segments as follows:

- Real estate sales
- Real estate rental and rendered services

No operating segments have been aggregated to form the above reportable operating segments. Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit and loss and is measured consistently with operating profit or loss in the financial statements.

THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

31 December 2023

32 FAIR VALUE MEASUREMENT

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained in note 2. The summary of the Company's classification of each class of assets and liabilities and their fair values are as follows:

	Notes	2023				Total US\$
		Carrying amount US\$	Level 1 US\$	Level 2 US\$	Level 3 US\$	
Financial assets measured at:						
<i>Amortized cost</i>						
Cash and bank balances	12	26,821,691	8,988,809	17,832,882	-	26,821,691
Accounts and notes receivable	13	6,406,646	-	-	6,406,646	6,406,646
Due from joint ventures, subsidiaries, associates and other related parties	14	232,997	-	-	232,997	232,997
Other assets	14	666,564	-	-	666,564	666,564
Financial assets at amortized cost	15	35,503,831	20,603,831	14,900,000	-	35,503,831
		<u>69,631,729</u>	<u>29,592,640</u>	<u>32,732,882</u>	<u>7,306,207</u>	<u>69,631,729</u>
Financial liabilities measured at:						
<i>Amortized cost</i>						
Accounts payable and other liabilities	20	27,862,678	-	-	27,862,678	27,862,678
Dividends payable	21	57,216,806	-	-	57,216,806	57,216,806
		<u>85,079,484</u>	<u>-</u>	<u>-</u>	<u>85,079,484</u>	<u>85,079,484</u>
2022						
	Notes	Carrying amount US\$	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
Financial assets measured at:						
<i>Amortized cost</i>						
Cash and bank balances	12	40,479,184	29,249,854	11,229,330	-	40,479,184
Accounts and notes receivable	13	1,028,029	-	-	1,028,029	1,028,029
Due from joint ventures, subsidiaries, associates and other related parties	14	1,385,252	-	-	1,385,252	1,385,252
Other assets	14	6,624,318	-	-	6,624,318	6,624,318
Financial assets at amortized cost	15	21,703,678	13,853,678	7,850,000	-	21,703,678
		<u>71,220,461</u>	<u>43,103,532</u>	<u>19,079,330</u>	<u>9,037,599</u>	<u>71,220,461</u>
Financial liabilities measured at:						
<i>Amortized cost</i>						
Accounts payable and other liabilities	20	27,009,365	-	-	27,009,365	27,009,365
Dividends payable	21	57,352,316	-	-	57,352,316	57,352,316
		<u>84,361,681</u>	<u>-</u>	<u>-</u>	<u>84,361,681</u>	<u>84,361,681</u>

The fair values of the financial assets and financial liabilities are not materially different from their carrying values.

There have been no transfers between Level 1, Level 2 and Level 3 during the year.

33 APPROVAL OF FINANCIAL STATEMENTS

The Board of directors approved the financial statements for the year ended 31 December 2023 on 25 November 2024.
